Notes to the Unaudited Condensed Consolidated Interim Financial Statements

As at and for the period ended June 30, 2023

(Expressed in Canadian dollars unless otherwise stated)

## 1. The Company and going concern

NXT Energy Solutions Inc. (the "Company" or "NXT") is a publicly traded company based in Calgary, Alberta Canada.

NXT's proprietary Stress Field Detection ("SFD®") technology is an airborne survey system that utilizes quantum-scale sensors to detect gravity field perturbations in an airborne survey method which can be used both onshore and offshore to remotely identify traps and reservoirs with exploration potential in both the hydrocarbon and geothermal industries.

These condensed consolidated interim financial statements of NXT have been prepared by management in accordance with generally accepted accounting principles of the United States of America ("US GAAP").

These condensed consolidated interim financial statements reflect adjustments, all of which are normal recurring adjustments that are, in the opinion of management, necessary to reflect fairly the financial position and results of operations for the respective periods.

These condensed consolidated interim financial statements have been prepared on a going concern basis. The going concern basis of presentation assumes that NXT will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of business.

The events described in the following paragraphs highlight that there is substantial doubt about NXT's ability to continue as a going concern within one year after the date that these condensed consolidated interim financial statements have been issued. The Company's current cash position is not expected to be sufficient to meet the Company's obligations and planned operations for a year beyond the date that these condensed consolidated interim financial statements have been issued.

The Company has deferred payment of operating costs, including payroll and other general and administrative costs. Subsequent to June 30, 2023, the Company completed the second tranche of a convertible debenture which resulted in raising an additional net proceeds of US\$200,000 (CAD\$265,560) (Note 6) with a further US\$900,000 (CAD\$1,192,500) committed by the financier in the third quarter of 2023. Further financing options that may or may not be available to the Company include issuance of new equity, debentures or bank credit facilities. The need for any of these options will be dependent on the timing of securing new SFD® related revenues and obtaining financing on terms that are acceptable to both the Company and the financier.

NXT continues to develop its pipeline of opportunities to secure new revenue contracts. However, the Company's longer-term success remains dependent upon its ability to convert these opportunities into successful contracts, to continue to attract new client projects, expand its revenue base to a level sufficient to exceed fixed operating costs, and generate consistent positive cash flow from operations. The occurrence and timing of these events cannot be predicted with sufficient certainty.

The condensed consolidated interim financial statements do not reflect adjustments that would be necessary if the going concern basis was not appropriate. If the going concern basis was not appropriate for these condensed consolidated interim financial statements, then adjustments would be necessary in

the carrying value of the assets and liabilities, the reported revenues and expenses, and the balance sheet classifications used. These adjustments could be material.

## **Use of Estimates and Judgements**

In preparing these condensed consolidated interim financial statements, NXT is required to make estimates and assumptions that affect both the amount and timing of recording assets, liabilities, revenues and expenses since the determination of these items may be dependent on future events. The Company uses the most current information available and exercises careful judgment in making these estimates and assumptions. In the opinion of management, these condensed consolidated interim financial statements have been properly prepared within reasonable limits of materiality and within the framework of the Company's significant accounting policies. The estimates and assumptions used are based upon management's best estimate as at the date of the condensed consolidated interim financial statements. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the period when determined. Actual results may differ from those estimates.

Certain estimates and judgments have a material impact where the assumptions underlying these accounting estimates relate to matters that are highly uncertain at the time the estimate or judgment is made or are subjective. In 2023 and 2022, the estimates and judgments included the assessment of impairment indicators of intellectual property.

The Company reviews intellectual property for impairment whenever events or changes in circumstances indicate the carrying value may not be recoverable. The Company considers both internal and external factors when assessing for potential indicators of impairment of its intellectual property, including the consideration of historical and forecasted SFD related revenues, market capitalization, control premiums, and the SFD related revenue multiples compared to industry peers. When indicators of impairment exist, the Company first compares the total of the estimated undiscounted future cash flows or the estimated sale price to the carrying value of an asset. If the carrying value exceeds these amounts, an impairment loss is recognized for the excess of the carrying value over the estimated fair value of the intellectual property.

Other accounting estimates and judgments that may have a material impact on the financial statements include: the forward looking assumptions related to the going concern assumption, the estimated useful lives of intellectual property and property and equipment, estimates related to classification of convertible debentures, and the assumptions used to measure stock based compensation expense.

## **2. Significant Accounting Policies**

### **Basis of Presentation**

These condensed consolidated interim financial statements for the period ended June 30, 2023 have been prepared by management in accordance with US GAAP and by applying the same accounting policies and methods as used in preparing the consolidated financial statements for the fiscal year ended December 31, 2022. There are no new policies that were adopted on January 1, 2023, other than Convertible Debentures.

## Convertible Debentures

Convertible debentures are recorded as a current liability as the Company has an obligation to deliver cash to the holder on demand on or before the maturity date. If the convertible debentures are converted to either voting preferred or common shares, the preferred or common shares will be classified as equity. Interest on the convertible debenture is accrued. Dividends on preferred shares will only be accrued on dividends declared by the Board of Directors of the Company.

### SFD® Hydrocarbon Right

During 2015, NXT acquired the rights to the SFD® technology for use in the exploration of hydrocarbons (“Hydrocarbon Right”) from Mr. George Liszicasz, the former President and CEO of NXT (“CEO”), and recorded the acquisition as an intellectual property asset on the balance sheet. The asset was recorded at the fair value of the consideration transferred, including the related tax effect of approximately \$25.3 million.

The Hydrocarbon Right is being amortized on a straight line basis over its estimated useful life of 15 years. The annual amortization expense expected to be recognized is approximately \$1.7 million per year for a 5 year aggregate total of \$8.5 million.

### SFD® Geothermal Right

The Company acquired the SFD® technology rights for geothermal resources (“Geothermal Right”) from the CEO on April 18, 2021. The consideration deliverable by the Company in connection with the acquisition of the Geothermal Right is set forth below:

1. US\$40,000 (CAD\$50,310) signature payment, which became due immediately and was paid on April 22, 2021;
2. 300,000 common shares, which were issued in December 2021;
3. CAD\$15,000 signature milestone payment paid in August 2021;

The DSUs plan is a long-term incentive plan that permits the grant of DSUs to qualified directors. DSUs granted under the DSUs plan are to be settled at the retirement, resignation or death of the Board member holding the DSUs.

## Restricted Stock Units:

RSUs entitle the holder to receive, at the option of the Company, either the underlying number of shares of the Company's Common Stock upon vesting of such units or a cash payment equal to the value of the underlying shares. The RSUs vest at a rate of one-third at the end of each of the first three years following the date of grant. In the third quarter of 2022, the Company settled the RSUs that vested with shares and cash, and intends to continue to settle the RSUs in shares and cash.

A continuity of the number of RSUs, including fair value ("FV") which are outstanding at the end of the current period and as the end of the prior fiscal year ended December 31, 2022 are as follows:

## Employee Share Purchase Plan:

The ESP Plan allows employees and other individuals determined by the Board to be eligible to contribute a minimum of 1% and a maximum of 10% of their earnings to the plan for the purchase of common shares in the capital of the Company, of which the Company will make an equal contribution. Common shares contributed by the Company may be issued from treasury or acquired through the facilities of the TSX. During 2023 and 2022 the Company has elected to issue common shares from treasury.

A continuity of the number of commons shares under the ESP Plan which are outstanding at the end of the current period and as at the prior fiscal year ended December 31, 2022 are as follows:

|                            | For the six months ended<br>June 30, 2023 |           | For the year ended<br>December 31, 2022 |           |

## 12. Financial instruments

### Non-derivative financial instruments:

The Company's non-derivative financial instruments consist of cash and cash equivalents, accounts receivable, deposits, accounts payables and accrued liabilities, convertible debentures, long-term debt and lease obligations. The carrying value of cash and cash equivalents, accounts receivable, deposits, and accounts payables and accrued liabilities approximates their fair values due to their short terms to maturity.

### Credit Risk

Credit risk arises from the potential that the Company may incur a loss if counterparty to a financial instrument fails to meet its obligation in accordance with agreed terms. The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents and accounts receivable. The carrying value of cash and cash equivalents and accounts receivable reflects management's assessment of maximum exposure to credit risk. At June 30, 2023, cash

and cash equivalents included balances in bank accounts placed with financial institutions with investment grade credit ratings. The Company manages Accounts Receivable credit risk by requiring advance payments before entering into certain contract milestones and when possible, accounts receivable insurance.

## Foreign Exchange Risk

The Company is exposed to foreign exchange risk in relation to its holding of significant US\$ balances in cash and cash equivalents, deposits, accounts payables, accrued liabilities, convertible debentures, and lease obligations, and entering into United States dollar revenue contracts. The Company does not currently enter into hedging contracts, but to mitigate exposure to fluctuations in foreign exchange the Company uses strategies to reduce the volatility of United States Dollar assets including converting excess United States dollars to Canadian dollars. As at June 30, 2023, the Company held net U.S. dollar liabilities totaling US\$628,104. Accordingly, a hypothetical 10% change in the value of one United States dollar expressed in Canadian dollars as at June 30, 2023 would have had an approximately \$83,224 effect on the unrealized foreign exchange gain or loss for the period. As at June 30, 2022, the Company held net U.S. dollar assets totaling US\$273,150. Accordingly, a hypothetical 10% change in the value of one United States dollar expressed in Canadian dollars as at June 30, 2022 would have had an approximately \$35,191 effect on the unrealized foreign exchange gain or loss for the period.

## **13. Change in non-cash operating working capital**

The changes in non-cash operating working capital balances are comprised of:

## **14. Geographic information**

The Company generates revenue from its SFD® survey system that enables the clients to focus their exploration decisions concerning land commitments, data acquisition expenditures and prospect prioritization on areas with the greatest potential. NXT conducts all of its survey operations from its head office in Canada, and occasionally maintains administrative offices in foreign locations if and when needed. Revenue fluctuations are a normal part of SFD® survey system sales and can vary significantly year-over-year. There were no SFD® revenues in the quarters ended June 30, 2023 and 2022.
